

Procedures for Receiving Medical Treatment in México

- Choose a provider from the participating provider listing. (Non-participating providers are not covered)
- Present your healthcare ID card (or temporary card) along with a picture ID.
- The provider will verify the participant's coverage using Pinnacle's online tool.
- If you receive treatment before your eligibility is updated, you are required to pay for the services at the contracted provider. The provider will reimburse you any monies collected, less the appropriate co-pay(s), once the provider verifies your eligibility. You have 30 days from the day of service to request a refund from the provider.
- Plan Co-pays:
 - \$10 Office Visit
 - \$10 Prenatal office visit
 - \$10 Preventive Medicine
 - \$10 Laboratory Services
 - \$10 Radiology Services
 - \$10 Diagnostic Imaging (CT Scan, MRI)
 - \$10 Ambulance
 - \$10 Outpatient Hospital Services
 - \$10 Birth and Surgical procedures
 - \$10 Hospitalization
 - \$0 Medication (20% coinsurance after accumulating \$5,000 in benefits used)
- Once the patient accrues \$5,000 in benefits used, the \$10 copays still apply as well as an additional 20% coinsurance on all services.
- Your primary care physician is responsible for the management of all health care services including laboratory, x-rays, pharmacy, surgery, hospitalization, and specialty care.
- All medications are dispensed directly at the panel provider's clinic and/or their subcontracted pharmacy.
- The panel provider will prescribe and dispense the generic medication when medically appropriate. If you are prescribed a generic medication, but you request a brand name, you will be responsible for the full cost of the brand name medication.
- Maximum of a 15-day supply per medication, except on maintenance medication.
- Plan allows 60-90 day prescription supply for maintenance medication on chronic conditions. Your physician will determine if your medical condition allows a supply for 60 to 90 days before you are required a follow up visit.
- Birth Control medication allowed for up to 90 days.
- Over the counter medication is not covered.
